

**Kirpekar**

ISO 9001 COMPANY

## Multi Head Condenser Welding Machine

## Semi Automatic Condenser welding machine\_

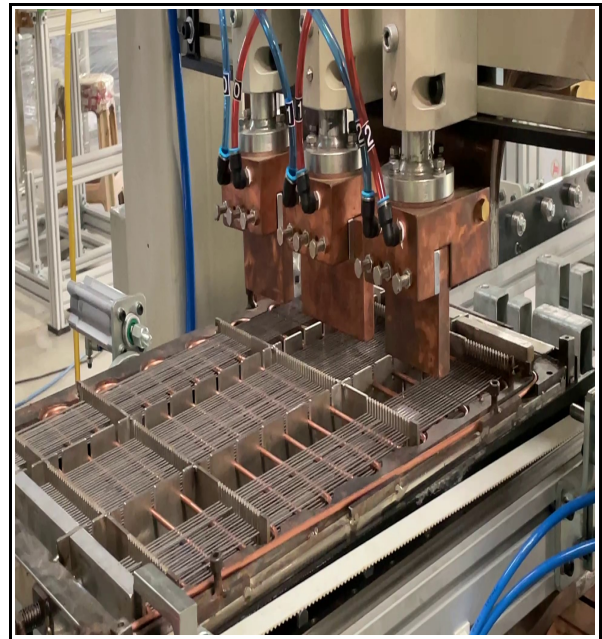

Servo Motor  
Conveyor II

MFDC Welding  
Power Source

Multi Head Welding  
Machine

Jig Lifting  
Mechanism

Servo motor  
Conveyor I

## **FEATURES**

- Efficiency high: Can produce Approx 800 PC/shift
- Minimize deformation and discoloration
- Electrode is easy to change after wear, don't need to change the complete electrode and electrode base, only for electrode parts, so decreasing the cost.
- Equipped with PLC
- Machine body of thick steel sheet, not easy to deformation
- Microcomputer control, accuracy and steady
- Water cooling transformer
- Fast solenoid valve, making welding speed faster, thereby the productivity is higher, therefore decreasing cost.
- Special cylinder will use for fast operation
- Quality is stable, failure rate is low, therefore machine life is longer
- Part indexing will done manually. Sliding arrangement will provide with machine.
- Machine Available Manually/Semi Automatic
- Machine Available AC/MFAC/MFDC

## **Registered office & Works**

**Kirpekar Engineeing Pvt Ltd.**  
**Plot No. D-243-2-3,Chakan MIDC**  
**Vill-Bhamboli,Tal-Khed**
